

Website Specification

Company Website Redesign - requirements document

Project Overview

The goal of this project is to redesign the official company website and improve navigation, visual consistency, and responsiveness.

Functional Requirements

The website should include a home page, about page, services page, contact form, and project portfolio section.

Design Requirements

The new design should be clean, responsive, accessible, and aligned with the company brand.

Technical Requirements

The frontend should be implemented using React. The website should load quickly and support modern browsers.

Requirement	Priority
Responsive layout	High
Contact form	High
Portfolio section	Medium
SEO optimization	Medium
